

Action Planning Workshop

Date: Wednesday, September 29th, 2010
Time: 6:30pm to 9:30pm
Location: Moncton Lions Senior Citizens Centre, 473 St George Street

The City of Moncton is developing a Sustainability Plan to help shape Moncton's future as a sustainable city. The Sustainability Plan is a long term plan – developed with input from the community and stakeholders – which outlines what Moncton would look like as a sustainable City and what needs to be done to help make that vision a reality.

As a part of this process, a Stakeholder Advisory Group was formed. Made up of residents and representatives from community organizations, the Stakeholder Advisory Group provides a forum for discussion and input at key points in developing the plan.

This is one of those key points.

You're invited. Please join the Sustainability Plan Stakeholder Advisory Group and other community members at this workshop. A vision, objectives and a series of goals have been developed for the Plan; the next step is to identify what actions need to take place to achieve those and what should be done right away, a few years from now or in the long term.

This workshop will be an opportunity for interested citizens to work with the Stakeholder Advisory Group in developing this action plan.

Please RSVP by Wednesday September 22nd, 2010 to Holly McMackin of Dillon Consulting, at 506-633-5000 or hcmackin@dillon.ca. Please indicate whether you would like to participate in French or in English.
